2. Basis of Presentation

Statement of compliance

These Consolidated Interim Condensed Financial Statements of the Group have been prepared in accordance with the International Financial Reporting Standard IAS 34 "Interim Financial Statements".

Basis of presentation

These Consolidated Interim Condensed Financial Statements are presented in millions of Russian rubles, unless otherwise indicated. These Consolidated Interim Condensed Financial Statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair value.

Moscow Exchange and its subsidiaries registered in the Russian Federation maintain their accounting records in accordance with Russian Accounting Standards ("RAS"). Foreign subsidiaries of the Group maintain their accounting records in accordance with the accounting standards of the countries in which they operate. These Consolidated Interim Condensed Financial Statements have been prepared on basis of the statutory accounting records and have been adjusted to conform to IFRS.

MOSCOW EXCHANGE GROUP

Notes to the Consolidated Interim Condensed Financial Statements for the Six - Month Period Ended June 30, 2016 (Continued)

(in millions of Russian rubles, unless otherwise indicated)

2. Basis of Presentation (continued)

Inflation accounting

The Russian economy was considered hyperinflationary until December 31, 2002. As such, the Group applied IAS 29 *Financial Reporting in Hyperinflationary Economies*. The effect of applying IAS 29 is that non-monetary items, including components of equity, were restated to the measuring units current at December 31, 2002 by applying the relevant inflation indices to the historical cost, and that these restated values were used as a basis for accounting in subsequent periods.

3. Significant Accounting Policies

The accounting policies adopted by the Group in the preparation of these Consolidated Interim Condensed Financial Statements are consistent with those followed in the preparation of the Group's Consolidated Financial Statements for the year ended December 31, 2015.

In the current period, the Group has adopted all of the new and revised Standards and Interpretations issued by the IASB and IFRIC of the IASB that are relevant to its operations and effective for reporting periods ending on June 30, 2016.

The adoption of these new and revised Standards and Interpretations has not resulted in significant changes to the Group's accounting policies that have affected the amounts reported for the current or prior years.

4. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

Impairment of receivables

The Group regularly reviews its receivables to assess for impairment. The Group's receivables impairment provisions are established to recognize incurred impairment losses in its portfolio of receivables.

The Group uses Management's judgment to estimate the amount of any impairment loss in cases where the debtor has financial difficulties and there are few available sources of historical data relating to similar debtors. Similarly, the Group estimates changes in future cash flows based on past performance, past counterparty behavior, observable data indicating an adverse change in the payment status, and national or local economic conditions that correlate with defaults on assets in the group.

As at June 30, 2016, the gross receivables totalled RUB 753,3 million (December 31, 2015: RUB 556,6 million) and allowance for impairment losses amounted to RUB 44,1 million (December 31, 2015: RUB 46,6 million) recognised within other assets in the statement of financial position.

Notes to the Consolidated Interim Condensed Financial Statements for the Six - Month Period Ended June 30, 2016 (Continued)

(in millions of Russian rubles, unless otherwise indicated)

4. Critical Accounting Judgements and Key Sources of Estimation Uncertainty (continued)

Key sources of estimation uncertainty (continued)

Valuation of financial instruments

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include:

- Using recent arm's length market transactions;
- Reference to the current fair value of another instrument that is substantially the same;
- A discounted cash flow analysis or other valuation models.

An analysis of fair values of financial instruments and further details as to how they are measured are provided in Note 26.

Impairment of goodwill

Goodwill is tested for impairment annually (as at December 31) and when there is an indication that the carrying value may be impaired.

Impairment is determined by assessing the recoverable amount of each cash-generating unit (CGU) or group of CGUs to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised.

Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option and volatility and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 10.

Total personnel expenses	2 965,0	2 843,7

Rights to purchase equity instruments granted to some employees give holders a choice either to only purchase the full number of shares at exercise price or also to sell back shares at the market price for the same ruble value. A majority of the rights vest when the employee continues to be employed by the Group at the vesting date. The maximum contractual term of the contracts is four years. The fair value of the rights is measured at the grant date using a binomial model taking into account the terms and conditions upon which the instruments were granted.

The following table illustrates the number and weighted average exercise prices (WAEP), and movements in rights to purchase equity instruments:

	Number	WAEP
Outstanding at 1 January 2015	32 857 357	47,50
Granted	23 200 000	66,28
Exercised	(2 874 581)	47,14
Forfeited	(233 333)	46,90
Expired	(2 743 749)	47,14

Expired	(6 094 984)	50,10
Outstanding at 30 June 2016	29 390 344	68,88

WAEP for exercised rights in the table above is calculated based on the contractual exercise price.

The number of rights exercisable as at June 30, 2016 is 5 523 665 with WAEP of RUB 67,67 (December 31, 2015: 15 165 683 with WAEP of RUB 47,53).

There were no new rights granted during the period ended June 30, 2016. The weighted average fair value of rights granted during the six-month period ended June 30, 2015 was RUB 18,98.

11. Income Tax

The Group provides for taxes based on the tax accounts maintained and prepared in accordance with the tax regulations of countries where the Group and its subsidiaries operate and which may differ from IFRS.

Deferred taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. Temporary differences relate mostly to different methods of income and expense recognition, as well as to recorded values of certain assets.

The tax rate used for the reconciliations between tax expense and accounting profit is the corporate tax rate of 20% payable by corporate entities in the Russian Federation on taxable profits under the tax law in that jurisdiction.

Reconciliation of income tax expense and accounting profit for the six-month period ended June 30, 2016 and 2015 are explained below:

Accounts in precious metals	4 223,3	3 783,9
Total balances of market participants	805 053,9	1 119 097,5

Accounts of clearing participants include margins deposited by clearing participants. The purpose of margins is to support clearing settlements on the market and to cover risks arising from open positions of market participants, including operations of market participants, where the Group acts as a central counterparty. If an initial margin requirement exceeds the collateral posted by a market participant in the guarantee fund, the participant is required to cover the deficit by posting additional margin for the unsettled trades or to reduce the open position to an appropriate level. The margins is payable to a market participant when it closes its positions. The Group places guarantee fund amounts on current accounts and deposits with reputable banks or repo receivables (Notes 12, 14).

Market participants also pledge traded securities to the guarantee fund as collateral for their obligations. These securities are blocked at the participants' custody accounts in NSD. These securities are not assets of the Group and are not recognised in the Consolidated Interim Condensed Statement of the Financial Position.

The risk-covering funds comprise contributions deposited by market participants. The purpose of these funds is to provide additional insurance to the market participants in respect of the ability of the Group to guarantee proper settlements of open positions in case of a market participant default. The minimum contribution amount per one participant is determined by the NCC Supervisory Board and it is approved by the Derivatives Market Committee, the Currency Market Committee, the Securities Market Committee and the Securities Lending & REPO Committee. Risk-covering funds amounts are only used to cover the deficit if a margin posted by a trading participant is not sufficient to cover its losses. The Group places cash received from the market participants in the risk-covering funds with top-rated banks (Notes 12, 14).

26. Fair Value Measurements

The Group performs a fair value assessment of its financial assets and liabilities, as required by IFRS 13 Fair Value Measurement. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The Group measures fair values for financial assets recorded on the statement of financial position at fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities.
- Level 2: Valuation techniques (for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable).
- Level 3: Valuation techniques (for which the lowest level input that is significant to the fair value measurement is unobservable).

26. Fair Value Measurements (continued)

The foreign currency forward contracts are measured based on observable spot exchange rates and the yield curves of the respective currencies.

The fair value of the unquoted debt securities has been determined using a discounted cash flow model, by reference to quoted market prices for similar instruments.

The fair value of unquoted equity instruments has been determined based on market approach using price/net assets ratio for similar companies.

The table below analyses financial assets and liabilities measured at fair value at June 30, 2016, by the level in the fair value hierarchy into which the fair value measurement is categorised:

	June 30, 2016			Total
	Level 1	Level 2	Level 3	
Financial assets at fair value through profit or loss	0,6	290,3	-	290,9
Central counterparty financial assets and liabilities (currency transactions)	5 593,1	-	-	5 593,1
Investments available-for-sale	214 410,1	6 945,3	145,0	221 500,4
Derivative financial liabilities	-	5,3	-	5,3

Financial assets and liabilities measured at fair value at December 31, 2015, by the level in the fair value hierarchy into which the fair value measurement is categorised:

	December 31, 2015			Total
	Level 1	Level 2	Level 3	
Financial assets at fair value through profit or loss	0,4	-	-	0,4

26. Fair Value Measurements (continued)

The following table shows a reconciliation for six-month period ended June 30, 2016 and 2015, for fair value measurements in Level 3 of the fair value hierarchy:

	FVTPL	AFS
Balance at December 31, 2014	58,3	34,3
Loss recognised in net loss on financial assets at fair value through profit or loss	(2,1)	-
Level 3 securities purchased	-	3,1
Foreign exchange loss	-	(0,3)
Balance at June 30, 2015	56,2	37,1
Balance at December 31, 2015	-	145,6
Level 3 securities sold	-	(0,1)
Foreign exchange loss	-	(0,5)
Balance at June 30, 2016	-	145,0

Management of the Group considers that the fair value of financial assets and liabilities not carried at fair value in Consolidated Interim Condensed Statement of Financial Position approximates their carrying value.

Transfers between level 1 and 2

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The following table shows total amount of transfers of financial assets between level 1 and level 2. Transfers from level 2 to level 1 (from level 1 to level 2) occurred due to fact that markets for certain financial assets became (ceased to be) active during the period.

	Transfers between Level 1 and Level 2	
	Six - month period ended June 30, 2016	Six - month period ended June 30, 2015
<i>From Level 1 to Level 2</i>		
Investments available-for-sale	1 802,9	710,1
<i>From Level 2 to Level 1</i>		
Investments available-for-sale	2 296,7	2 180,7
